

UTeach Funding Priorities

WE PREPARE TEACHERS. THEY CHANGE THE WORLD.

UTeach is a unique university-based secondary STEM (Science, Technology, Engineering, Mathematics) teacher preparation program that answers the need for qualified STEM teachers in Texas and across the country. When you support UTeach, you are supporting the immediate needs of our UTeach students, as well as the immediate needs of the school districts, nonprofit STEM organizations, and the K–12 students they serve.

UTEACH AUSTIN FUNDING PRIORITIES

UTeach Internships \$2,000 to \$2,000,000

UTeach students earn a stipend working with local middle schools, high schools, and nonprofit STEM-focused organizations. Internships benefit UTeach students, Austin-area schools, and nonprofit STEM-focused organizations and the K–12 students they serve. An endowed gift of \$2,000,000 will support up to 40 interns at an average of \$2,000 per internship per semester.

UTeach Outreach UT PREP Summer STEM Camps \$2,500 to \$300,000

UT PREP Summer STEM Camps provide a supportive and enriching academic research-based pathway to increase and diversify the number of historically underrepresented students in the Austin area, helping them pursue and be successful in STEM-focused college majors and careers. Funding supports partial or full scholarships for students who otherwise would not be able to attend. \$2,500 will support one student during the five-week summer camp.

Expansion of UTeach Maker \$315,000 to \$2,300,000

UTeach Maker is a selective micro-credentialing program that supports teachers in developing the tools and skills needed to bring innovative, project-based, constructionist, maker learning to school spaces. \$315,000 will expand the UTeach Austin program. \$2,300,000 supports expansion to three UTeach sites across the country, including teachHouston.

UTEACH NATIONAL FUNDING PRIORITIES

Expansion of the UTeach Academy of Innovative Teaching and Learning \$1,600,000

Expand UTeach’s award-winning, high-quality, research-based professional learning opportunities for 1,600 in-service K–12 educators through inquiry-based learning that integrates with technology and promotes equity for all learners. \$1,000 will support one teacher with 40 hours of professional development.

Expansion of UTeach CS Principles \$ 3,910,000

Expand UTeach Computer Science Principles to 1,630 classrooms and 40,000 plus students. UTeach CSP is a way to engage students in computer science education that goes beyond coding. UTeach CSP was developed with the explicit intention of broadening participation among young women and others historically underrepresented in computer science. \$24,000 will provide UTeach CSP curriculum and teacher support for one classroom.

UTeach Program Replication \$1,900,000 per site (over five years)

The UTeach Institute collaborates with universities in Texas and across the country to permanently establish strong STEM teacher preparation programs leading to well-prepared and effective STEM teachers and expanded access to excellent STEM education.

HOW TO INVEST IN UTEACH

Create an Endowment

Endowments provide a lasting investment for a better future. Opportunities starting at \$25,000 are available for Excellence Funds, Scholarships, and Program Support.

Matching Gifts

Many employers will match charitable contributions made by their employees, retirees, and/or spouses.

Sustained Giving

A sustaining gift of any size provides unrestricted funds for initiatives that are not supported by university resources. Gifts from \$10 to \$3,000 are an investment in the UTeach program and future STEM educators. A monthly, quarterly, or yearly gift—no matter the size—can have a big impact on UTeach students, mentor teachers, and K–12 students.

ANY AMOUNT TO ANY PROGRAM!

\$120

Funds a partial tuition rebate

As an incentive to try out teaching, UTeach offers all students who complete the first two courses in the program a partial tuition rebate.

\$250

Funds a mentor teacher stipend

In-service teachers provide expertise and vital feedback, contributing significantly to the development of our pre-service teachers.

\$500

Funds five New Teacher Kits

UTeach Induction support includes a box of supplies to help our graduates get their first classroom ready.

\$1,000

Provides a partial scholarship for UTeach Outreach UT PREP Summer STEM Camps

Provide opportunities for disadvantaged kids to attend academically rich summer camps focusing on Science, Technology, Engineering, and Math.

\$1,500

Helps support the UTeach Alumni Conference

Support the national community of high-quality STEM teachers who graduated from UTeach programs across the country.

\$2,000

Funds an internship for a semester

UTeach interns are paid a stipend to work 10 to 20 hours a week in a nonprofit organization that provides STEM-focused educational services to the community.

\$3,000

Funds induction and professional development for a new teacher

Your support provides UTeach graduates with professional development that helps them transition from student to expert teacher.

We Prepare Teachers.
They Change The World.
