The UTeach Internship program partners with STEM-focused organizations and local schools to help fill the growing demand for high-quality STEM preservice teachers, mentors, and tutors. UTeach interns gain valuable field experience while bringing innovative and effective STEM teaching methods to K–12 students, especially in underserved areas of the community. UTeach internships allow UTeach students to earn a stipend for working up to 20 hours a week in educational settings such as museums, libraries, STEM camps, and local schools.

COMMUNITY IMPACT

**Future STEM teachers:**
Internships help UTeach students by providing both financial assistance and practical STEM education experiences.

**The local community:**
Internships support the community by working with STEM educational initiatives that are part of local schools and nonprofit organizations.

**K–12 students:**
UTeach interns serve students in underserved populations by being a friend, mentor, and teacher.

---

"This internship has done so much for me. I am much more comfortable in my teaching ability, and this confidence has helped me work toward being a better teacher."

Sneha Khan, UTeach Intern

"At MathHappens, we bring math to the general public and try to increase math literacy while helping students and adults get rid of their fear of math. I can truly see the impact we have made."

Alex Li, UTeach Intern

"The interns are a big support for our students. Students and parents continually praise their efforts and caring demeanor. Without the interns, our struggling learners would not be as successful."

Eric Fredrickson, UT Online HS

"This internship has been so enriching for me. It will help me be a better educator for my students."

Cynthia Moreno, UTeach intern

"Our UTeach intern was a wonderful addition to the Magellan International School innovation team. As a computer science major, he was able to offer his technical expertise and insights. He also enthusiastically took on any challenge in the makerspace."

Patrick Benfield, Innovation Lab Director
